IBM Employee Attrition Dashboard

Created an IBM Employee Attrition Analysis Dashboard using Power BI. The dashboard analyzes employee attrition using KPI cards, donut charts, and bar charts. It shows total employees, employees who left, attrition rate, and average monthly income. I also analyzed employee attrition based on gender, overtime, job role, and department. The dashboard helps identify patterns in employee turnover.

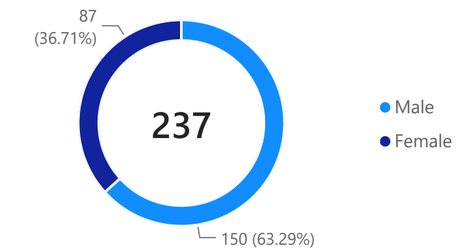

TotalEmployees
1K

AverageMonthlyIncome
6.50K

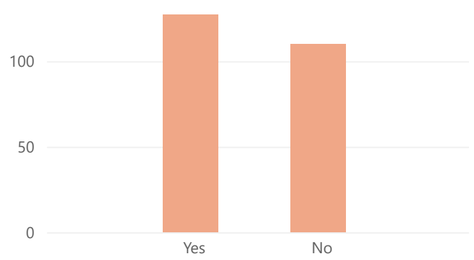

EmployeesLeft
237

AttritionRate
0.16

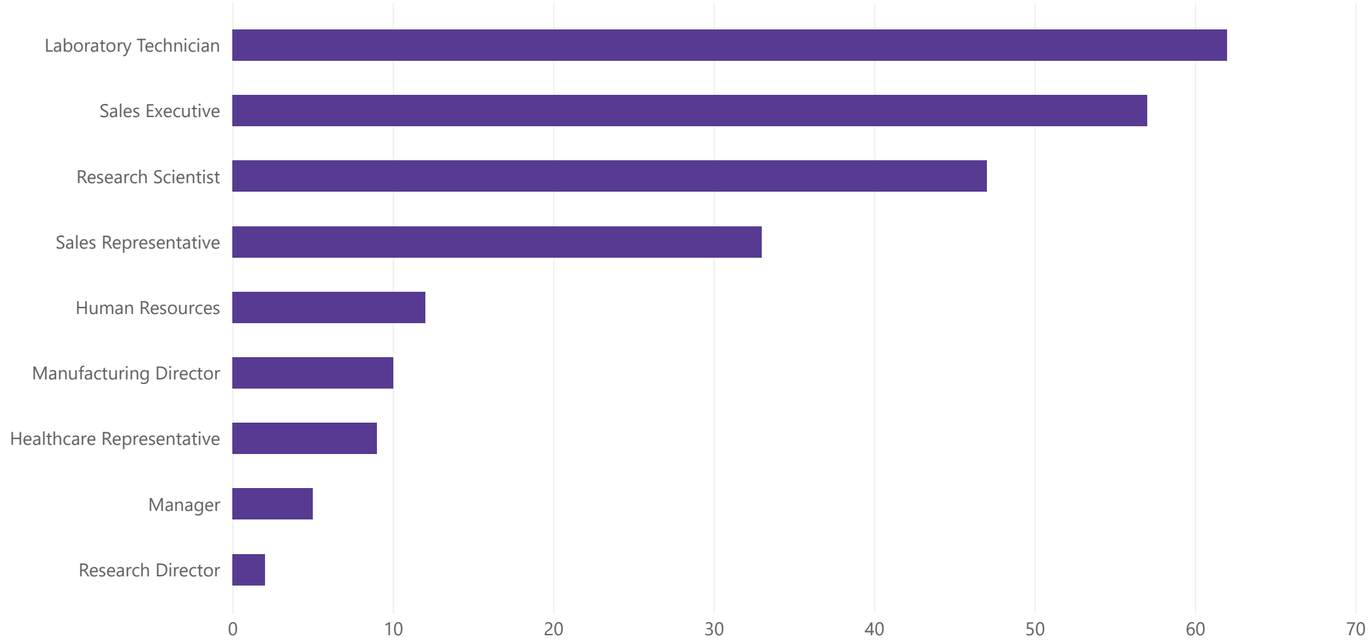

EmployeesLeft
by Gender

EmployeesLeft
by OverTime

EmployeesLeft
by JobRole

EmployeesLeft
by Department
